

WHAT LEGITSCRIPT CERTIFICATION MEANS:

Pavillon Treatment Center is pleased to announce that after an extensive review of its policies, procedures and staff qualifications, we have been certified by *LegitScript* and approved by Google as an addiction treatment provider which confirms standards of ethical and quality addiction treatment and compliance with all applicable laws and regulations in the addiction treatment field. With the *LegitScript* seal of approval on our website, consumers have the security of knowing the Pavillon program adheres to a strict code of ethics.

This national certification process is designed to protect the public and stop the unethical practices of profiteers who have entered the field of addiction. It is endorsed by the National Association of Addiction Treatment Providers, (NAATP), and Google, and implemented by the company *LegitScript* (an agency with a proven track record for healthcare merchant certification) to help the consumer make informed decisions based on honest claims and legitimate content in their advertising and on their websites.
